The Printing Specialist will be assigned a variety printing jobs to be completed accurately and in a timely manner. The objective is to enhance the overall work flow in the factory and ultimately ensure accurate production, on time and under budget.

The Responsibilities:

- Arrive promptly at the start of the work day
- Consult with the Master Printer / Press Operator to determine the work needed to complete and the process for completion
- Overseeing the production of product from beginning to end
- Assisting and supporting the manufacturing team to ensure production and production record keeping are efficient and accurate
- Utilizing various printing and design software
- Color matching and mixing of printing ink
- Maintaining and operating a one-of-a-kind printing press
- Finishing, packing and shipping product
- Inspecting quality and ensuring product meets specifications
- Being involved in the creative process and pitching new ideas to the team
- Maintaining clear and constant communication with the owners and Master Printer / Operator
- Complete all tasks with a positive attitude
- Training will be provided
- 90-day trial period required
