Title: Lead Automotive Mechanic / Master Technician

Are you an experienced Lead Automotive Mechanic ready to earn up to \$69,000 annually? Do you have experience servicing foreign and domestic cars and trucks bumper-to-bumper? If so, we are currently looking for a Lead Automotive Mechanic to join our growing team! If you are interested and meet the job requirements, we would like to talk with you about this position immediately.

Location: Off Hwy 71 West in Spicewood, Texas (between Bee Cave and Briarcliff)

Overview:

A growing, independent family-run automotive repair shop is looking for a lead mechanic who will demonstrate the ability to support and complement the B-level Technician. The lead technician will be assigned a host of major to minor repairs to be completed accurately and in a timely manner. The ultimate goal is to enhance the overall work flow in the shop, complete repairs and maintenance accurately and in a timely manner, and ultimately ensure customer satisfaction.

- No flag rate! Guaranteed hourly pay!
- 40 hours per week
- Closed on Sundays
- Flexible work start and end times
- Independent, family-owned shop
- Well-maintained equipment
- Up-to-date diagnostic scanners & software
- 4 work bays with new lifts
- Well-lighted work areas with a nice view
- Modern computer terminals using All Data software
- Professional Service Advisor
- Always plenty of work to keep you busy
- NO warranty work

Responsibilities:

- Arrive promptly at the start of the work day (either 7:30 AM-4:30 PM or 8:30 AM-5:30 PM)
- Address simple to advanced repairs that are related to preventative maintenance (e.g. changing out water pumps, brake systems, O2 sensors, etc.)
- Properly diagnose issues including: engine/transmission performance concerns, overheating, A/C problems, drivability and electrical concerns, etc.
- Utilize the available technology and All Data software to compile notes and observations made over the course of the diagnosis and repair of the vehicle
- Maintain clear and constant communication with the service advisor, business owners, and additional staff
- Order automobile parts, where necessary
- Complete all tasks with a positive attitude
- Exceed the expectations of the customer

Required Qualifications:

CAREER CREATORS CONSULTING
PROPEL YOUR CAREER FORWARD

- ASE-certified as a Master tech **PREFERRED BUT NOT REQUIRED**. (If not currently an ASE-certified technician, a willingness to earn this certification is required.)
- 3 years of industry experience
- Expertise working on many makes & models of both foreign and domestic cars and trucks
- Certified to perform vehicle state inspections in Texas **PREFERRED**
- A valid driver's license with a clean driving record **REQUIRED**
- Must have own set of common automotive tools. (There is coverage for equipment and more uncommon tools.)
- Proven ability to excel on a team and individually
- Literate with the use of computers, specific software (i.e. All-Data), and diagnostic scanner tools, etc.
- Able to multi-task efficiently and productively
- Excellent verbal communication skills
- Proactive, friendly, and enthusiastic to provide excellent service

Offering:

- Hourly Pay, depending on experience -- \$25-\$33 per hour
- 40 hours per week with any hours over 40 per week assigned as overtime
- Paid weekly
- All employee-related car repairs done at cost of parts only

Our benefits include:

- Basic Health Insurance
- Tool Allowance
- Tool Coverage
- Continued Paid Training
- Clean shirt provided daily

Environment: The temperature of the shop is kept cool by opening the garage doors and by providing a large air fan, in the summer. In the colder months, the opposite is done to warm the garage.
